TimberWest Honeymoon Bay Operations Fonds
The TimberWest Collection

Archivists: Mallory Marrs and Henry John

Archival project funded by: Library Archives Canada Documentary Heritage Communities Program and Anonymous Donors

Last Updated: 4 April 2023

Contents

Summary Information:.....	3
Series 1: Logging Planning and Cut Block Mapping	4
Series 2: Reforestation.....	7
Series 3: Caycuse-Renfrew Forestry and Engineering Files	8
Series 4: Personnel Files.....	13

Summary Information:

General Material Designation: Textual records.

Level of Description: Fonds.

Repository: The TimberWest Collection, Kaatza Station Museum and Archives.

Dates: 1946-1997.

Physical Description: 3.25m of textual records.

Name of Creator: TimberWest Honeymoon Bay Operations.

Biographical Information

In 1991, Fletcher Challenge Canada announced the merger of its Caycuse and Renfrew logging divisions into the Honeymoon Bay Operations. The Fletcher Challenge HBO Office was based in Gordon River, at the site of the former Western Forest Industries logging camp. In 1997 Fletcher Challenge Canada separated its logging outfits from its pulp operations, thus creating the logging corporation TimberWest in the process. In 2003 the Teal-Jones Group purchased the rights to T.F.L.46 harvesting and took over the HBO office, which they then relocated to Mesachie Lake.

Custodial History

Records were used at TimberWest HBO's Gordon River office, but many were created through predecessor British Columbia Forest Product operations at their Caycuse and Renfrew Divisions. Records were salvaged from the Gordon River office by Kaatza Historical Society volunteers in 2003.

Scope and Content

The fonds consists of records produced and used by TimberWest HBO staff in the course of the planning and execution of logging operations. It includes maps and documents of cutblock planning, as well as reforestation maps and data from the 1940s through to the 1980s. The fonds also includes an assortment of files produced by foresters and engineers in BCFP's Caycuse and Renfrew Divisions that were used for reference purposes by TimberWest HBO planners, as well as personnel files.

Notes:

Physical Condition: Records are generally in good condition – some file contents are slightly faded due to overuse and storage issues.

Arrangement: Records remain in their original order and file folder titles have been maintained.

Series 1: Logging Planning and Cut Block Mapping

Date: 1980-1997.

Physical Description: 94.6cm of textual records.

Scope and Content: Series contains planning documents for logging operations conducted by British Columbia Forest Products, Fletcher Challenge, and TimberWest HBO staff during the 1980s and 1990s.

Series 2: Reforestation

Date: 1946-1988.

Physical Description: 81cm of textual records.

Scope and Content: Series contains maps and planning documents for cut block reforestation across the Caycuse-Renfrew-Cowichan Region. This historical data from the 1940s through to the 1980s was used by TimberWest HBO foresters in the 1990s to plan harvesting cycles.

Series 3: Caycuse-Renfrew Forestry and Engineering Files

Date: 1951-1997.

Physical Description: 2.03m of textual records.

Scope and Content: Series contains files produced and used by foresters and engineers operating out of the Caycuse and Renfrew logging camps under employ of British Columbia Forest Products and Fletcher-Challenge Canada. Files were likely maintained by TimberWest HBO staff for reference purposes. Most files were produced by BCFP Divisional Forester Art Walker or BCFP Caycuse Chief Engineer Ken Worthington.
